

Supporting Healthcare Waste Efficiency

bringing a unique perspective

# Trusted Expertise

With nearly 20 years experience delivering strategic waste programmes within the healthcare sector, Catalyst Waste Solutions has the expertise needed to help you face the growing challenges of managing healthcare waste.

Our independence and many years experience working with both the NHS and the private sector give us a unique perspective and ability to act solely in the interests of you, the waste producer.

At Catalyst we don't believe in 'off-the-shelf' and pride ourselves on finding the waste management solution that will best serve your organisation. We take the time to understand your requirements, so we can focus our resources where needed to ensure your ongoing compliance, minimise environmental impacts and maximise cost-saving opportunities.

Pre-acceptance audits

DGSA compliance

Spend review & benchmarking

Segregation programmes

Employee engagement programmes

E-learning solutions

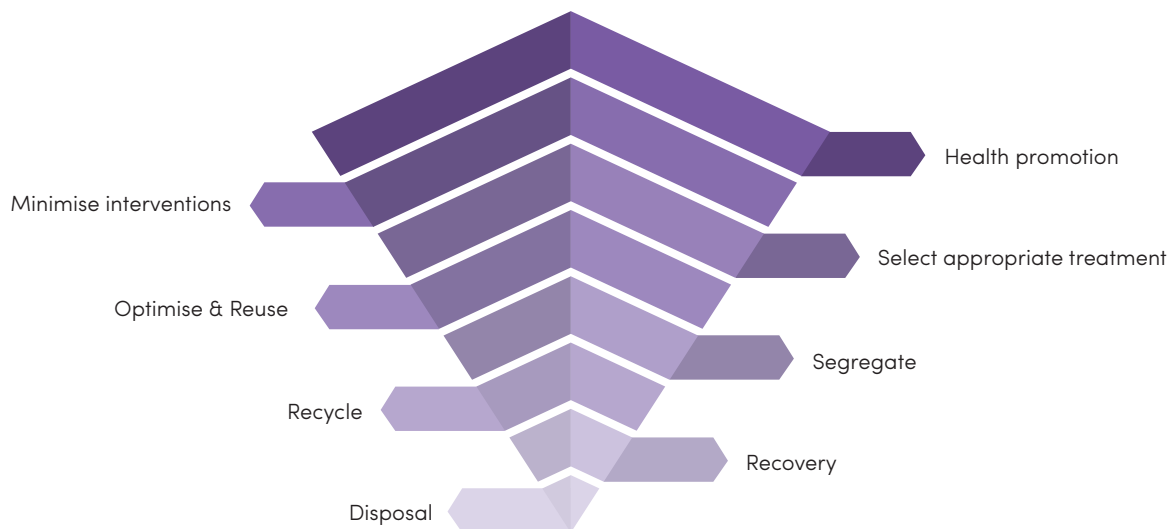

# An Integrated and Sustainable Approach

A survey by the Sustainable Development Unit found that 92% of the general public considered it important for the NHS to work in a more sustainable way.

It's clear that patients and staff care about the environment and how your organisation manages waste reflects on your wider performance. Our integrated and strategic approach will help your staff to realise that the efficient use of limited resources is a key part of their commitment to patient care.

We firmly believe that waste isn't merely an issue for the Estates and Facilities team and that good waste management practice starts way before the point of production. Waste minimisation is key and recognising the role that clinical choices play in the volume of waste being produced is critical to our holistic, integrated approach.

## Our Services

With many years experience designing and implementing results-focused waste management solutions, Catalyst are the independent, trusted voice in healthcare waste.

We offer complete end-to-end support from specification and procurement, through to implementation, auditing and ongoing reporting.

Our aim at all times is to deliver class-leading solutions that will help you to save money and achieve best value from your waste services.

# catalyst for compliance

Ensuring your legal compliance is  
the foundation stone for any waste  
management strategy.

 ur experts have spent many years advising healthcare waste producers and working alongside stakeholders including the Royal College of Nursing, Environment Agency and Chartered Institution of Wastes Management. Our experience interpreting current legislation will help you to navigate your way through these complex legal requirements and ensure that you can effectively demonstrate your compliance to both regulators and your own organisation.

help to navigate your way

## our services

-  Pre-acceptance audits
-  Waste policy review and development
-  Total Waste Management audits
-  Waste stream audit and analysis
-  On-site Duty of Care audits
-  DGSA compliance

# catalyst for cost

As an independent voice, we  
are uniquely placed to help  
you achieve best value in the  
procurement process.

With increasing pressure on NHS budgets and the need to find cost-savings in all areas, Catalyst understand how important it is to maximise the efficiency and cost-effectiveness of your waste management processes. Our experience working within the NHS and our detailed knowledge of the marketplace means that we can help you to deliver genuine savings in the shortest possible timeframe.

help to deliver genuine savings

NHS Trusts in ENGLAND spent nearly **87** million pounds on waste disposal in 2014/2015 

The RCN estimate that a potential **SAVING OF 5.5** million pounds per annum could be achieved if just **20%** of current **infectious waste** was reclassified as **OFFENSIVE** 

## our services

-  Spend review & benchmarking
-  Business case development
-  Procurement specification
-  Waste manager recruitment
-  Tender management & evaluation

# catalyst for change

We believe that engaging your employees is critical to the success of your waste management programme.

Our experience has taught us that engaging staff is key and that in many instances, clinicians are best placed to identify waste minimisation opportunities. However, achieving effective engagement is not always easy and our commitment to ongoing training and focused employee communications will help ensure that your waste management programme delivers the promised environmental and cost savings.

focused employee communications
